

Updated 10/10/2007

Tonnages listed are ESTIMATED for planing purposes and they are based on a series of new barges and a barge in level loading condition with all voids free of water and sediment. Cargo weights should be determined using scale weights or other verifiable methods. Any cargo weights estimated from these tables should always be estimated using BOTH empty and loaded draft readings.

Barge	Year	Type	Builder	Hull Size		# of Cores	Type	Cubic Capacity	Coaming Height	Light Draft	Estimated tons at indicated draft										L@Floor	Inside Dimensions			Cover Height	Empty Height above Wateline
